ASTAVA Valves & Manifolds Solution

ASTAVA - The Winning Move

As a customer-focused company, ASTAVA provides high-quality products and engineering solutions that address our customers' business and technical requirements.

Ceramic stem ball tip Al_2O_3 :

Superior hardness prevents deformation of the sealing tip and wear, significantly increasing the life time of the product for isolation purposes.

Multi-port valves

2-way manifolds

5-way manifolds

Gauge valves

Bleed valve

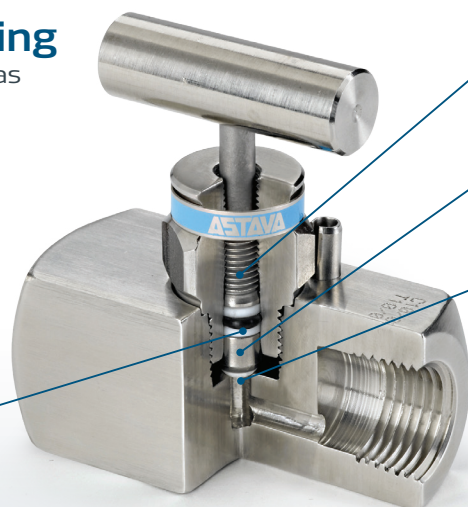

3-way manifolds

Two Available Concepts:

O-Ring Sealing

Best solution for Gas applications

Fluocarbon
FKM
o-ring

Rolled
threads

Hardened
stem

Ceramic stem
ball tip

Packing Sealing

Best solution for Oil and
Petrochemical applications

PTFE
packing

MAWT 200°C (400°F)
MAWP 600 bar (9,000 psi) / optional 690 bar (10,000 psi)
Optional different o-rings

MAWT 230°C (450°F) / optional 538°C (1000°F) with Grafoil
MAWP 413 bar (6000 psi) / optional 690 bar (10,000 psi)
